WEB DEVELOPER

Programmer since 2019, with experience in system development. I have been working as a freelancer since February 2020, always seeking new challenges and continuously learning. I have specialized experience in React, HTML, CSS, Sass, and JavaScript, among other technologies relevant to web development.

EXPERIENCE

Freelancer, São Paulo - SP

Front End Developer

February 2021 – December 2021

Project: Fica Fácil

Bringing together technology, education, and time optimization, we developed Fica Fácil to assist students, providing them with more autonomy in their study routines.

Technologies: React, Node, Sass, JavaScript, PHP, and MySQL.

DPL Parts Distributor, Toledo – PR

Full Cycle Developer

May 2023 – November 2023

Throughout my experience, I was responsible for developing the company's website, as well as dedicating myself to analyzing and resolving errors, as well as suggesting improvements for the system used by employees. Additionally, I performed a variety

of other functions, including weekly server backup and configuration, covering both Linux and Windows environments.

TECHNOLOGIES

HTML, CSS, React, React Native, Sass, Bootstrap, TailwindCss, Ajax, JSON, JavaScript, Python, PHP, Laravel, MySQL, SQLite, SQL Server, MongoDB, Java, Git, Node, TypeScript, Angular, Spring Boot, VueJS, User Experience (UX), User Interface Design (UI), Figma, AdobeXD, ERP, BPM, BPMN and CRM.

LANGUAGES

Portuguese – Native

English – Full Working Proficiency

Spanish – Full Working Proficiency
